

Acknowledgments

We acknowledge the invaluable assistance of colleagues at the NOAA Office of Climate Observation, Candyce Clark and Derrick Snowden, whose efforts were instrumental in developing and completing this report, and without whom the document could not possibly have been completed in timely fashion. In addition, Richard Rivera brought the report to electronic life with his design and implementation of the artwork and the user interface. We are grateful to these modest and helpful professionals for doing the hidden work that was necessary to bring this report to fruition.
